

Getting Started with Overdrive on Kindle Fire Tablets

1. Go to your device app store and search for **Overdrive**. Download and install the app.
2. Tap **Sign Up**; on the following screen tap **Sign up using library card**.
3. Type your library name (for example: **Steele Memorial Library**) then select it from the search results.
4. Select **Southern Tier Library System** from the drop menu on the next page then type in your library card number and PIN and tap **Sign In**.
5. Tap **Add a Title** to browse the collection and borrow titles.

In order to read eBooks in the Overdrive app, be sure to only select the option for **EPUB** or **PDF** books. If you select **Kindle**, you will be prompted to log into your Amazon account and your book will be delivered to your device “bookshelf” and will not be accessible from the Overdrive app. If that is your preference, you can select the Kindle format. Note: fewer titles are available in Kindle format so you might not always see it as an option.
